PharmaTimes is the UK's leading source of high-quality content for the pharmaceutical, life sciences and healthcare industries. We track the big trends and issues that affect organisations across the sector and offer insight and analysis to many thousands of readers in the UK.

For more than 25 years, PharmaTimes Magazine has offered its readers a comprehensive range of news, feature articles and interviews that delve into the issues, controversies and broader trends impacting companies in the pharmaceutical industry. Published ten times a year, the magazine is both paper-based and online, reaching senior leaders in pharma companies and the NHS.

PharmaTimes Daily News Alert provides a well-respected daily news service to help our readers keep up with the big news events of the day. Thoroughly checked and validated, our news articles offer reactions to and context for the sector's most important stores.

PharmaTimes Online collects all our news stories, magazine features and thought leadership pieces in a comprehensive, easy-to-navigate website alongside web-exclusive features, webinars and information on our competitions and jobs services.
A CRO, that thinks like no other.

When you choose O4 Research to support your UK/Ireland clinical and commercial pipelines, we apply our innovative, sector leading Clinical Research and ‘On & Off Site’ management solutions, with expert thinking built around you.

For over a decade we have successfully delivered full and functional services for Top 20 Pharma across Clinical Phases II-IV and Post Approval/RWE studies, always keeping the patient at the heart of our thinking.

ICONplc.com

We work your way.

We are a company that builds strong relationships forged on trust, and understanding clients’ problems. Every partnership ICON has entered into is still ongoing, continually evolving with our clients’ needs.

ICON and You.
Partners making a difference.

Finding answers for longer, healthier, happier lives

We work with autistic people and families to understand and improve every stage of their lives.

Right now our scientists and campaigners are focusing on mental health, epilepsy and language and communication.
